HOW MUCH DO I DRINK?

Tracking how much healthy liquid we consume compared to unhealthy one is an important part of life especially as we get older and we consume more drinks. This is my top three drinks that I wanted to track.

WATER

JUICE

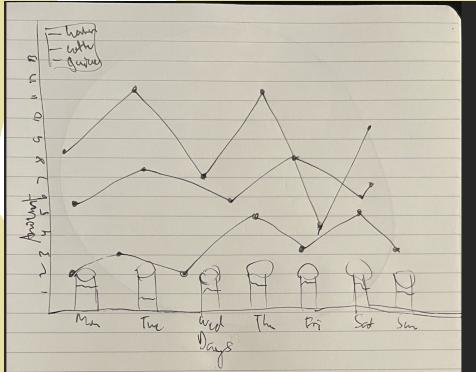

CAFFEINE

ROUGH DRAFT SKETCHES

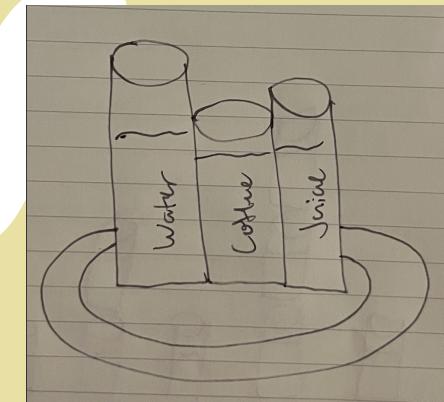

SKETCH 1

This example is a line graph with some cups on the bottom which represent each drink.

SKETCH 2

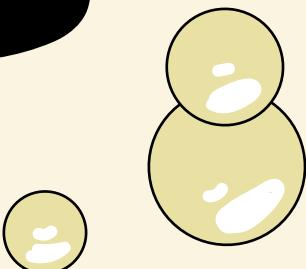

This example is similar to the first one but the cups are stacking onto each other.

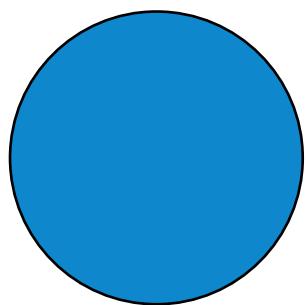

SKETCH 3

This example is the same idea as the other one but I put them all together on a plate.
